ABOUT MYSELF

I'm an 18 year old male with a lot of enthusiasm for the digital media. I've been working with film making and editing since the age of 13. At that time it was pure fooling around with a low end DV camera filming action movies and such.

In 2003 I got accepted as a student at *"Station Next" film school*, and that was when things really started to move. I learned all I need to know about film making and gained a lot of experience on video filming, editing, visual effects & 3D.

In my spare time I mostly do visual effects, and got my own "company" called **"TWO PENGUINS"**. We are 3 guys in the company, plus an agent. We are all 3 of different nationalities and we are located in Denmark, Sweden & Germany.

I love to be with friends having fun, and going out in the weekends. I'm a pretty open minded guy, with a good sense of humour and high confidence in myself. I have a big passion for big Hollywood movies such as Lord of the Rings, Star Wars etc. I can keep on watching these movies just for the effects.

When I work I do not fear challenges, and I'm always ready to give it an extra kick to get things done.

EDUCATION

I'm attending a 4 year long education at "**Københavns Tekniske Skole**" to become a Film & TV Production Technician. The education is partly working as trainee at Danish television station DK4 and partly attending classes at technical school. I'm on my first year now, and I'm scheduled to be done in spring 2011.

Other than that, I've had a 3 year long education at "Station Next" (www.station-next.dk). A film school aimed at young people who share the same interest; film making. I fully qualified in the fall of 2005 and got my diploma with this comment;

"Quote from Station Next:

*Have accomplished a 3 year long courseware at "Station Next Filmvæksthus"
The education has consisted of exchanging between teaching by professional film makers to individual film productions. With the upcoming 3 words we will characterize Morten Kühl Christensen*

Curious, Competent and Stable "
